BUDGET INFORMATION				
12. Amounts concerned	Budget line(s) (article, item): BGUE-B2021-14.020131-C1-INTPA Total estimated cost: 12 000 000 EUR			
MANAGEMENT AND IMPLEMENTATION				
13. Type of financing	Direct management through: - Grants - Procurement Indirect management with the entity(ies) to be selected in accordance with the criteria set out in section 4.3.3.			

1.2. Summary of the Action

The proposed Action intends to enhance the EU-Indonesia partnership. The Cooperation Facility will enable the EU to **pursue strategic interests and coherent policy outreach and dialogue** with the government and other partners, in particular on the SDGs, the Green Deal, as well as economic and business cooperation, and **enhance public awareness, understanding and approval** of the EU-Indonesia relationship. It thus will provide funding to foster meaningful engagement with Indonesia and allow the EU to better respond to global challenges and build resilience in a flexible, forward-looking and strategic manner. Such increased and coherent engagement will allow **leveraging additional funding from EU Member States and EU financial institutions** to create greater impact in policy fields of EU and joint interest, in particular relating to the EU Green Deal.

The **Specific Objectives** of this action are to:

1. Continue and reinforce EU-Indonesia relations and policy dialogues;
2. Promote an increased alignment between EU-Indonesia interests, principles, policies, and values, including human rights and gender equality, with a particular focus on the 2030 Agenda and the Sustainable Development Goals (SDGs);
3. Build increased awareness, understanding and approval of the EU and its role in Indonesia, the region and the world;
4. Enhance climate, biodiversity and environmental management, mainstreaming and monitoring, as well as conservation, sustainable, management use and restoration of natural resources.

The Action will do so by:

1. Creating opportunities for effective multilateralism and dialogue, including on EU and joint agendas.
2. Building a strategic partnership committed to mutual interests.
3. Implementing strategic communication and public diplomacy activities
4. Increasing interaction with and strengthening the capacities of civil society organisations, public entities and private sector.
5. Strengthening capacities, raising awareness and improving access to knowledge and information on the Green Agenda, and promoting innovation in this field.

The Cooperation Facility will consist of a wide range of tools, initiatives and activities to achieve its objectives. It will **create partnerships** between European and Indonesian businesses, and **leverage green catalytic investments** through the strong involvement of development banks, and allow for flexible, fast assistance and implementation of technical assistance, studies and peer to peer exchanges of experiences where needed. At the same time, it will deliver
