1.2 Summary of the Action

In the past years, there has been an emergence of conflicts and tensions in Ethiopia, simultaneously occurring in different areas and regions. However, the one between the federal government and the Tigray Defence Forces TDF/Tigray Peoples Liberation Front TPLF and their respective allied forces in the north, has led the country to a national crisis and an extremely difficult humanitarian situation.

This Action will contribute to promoting sustainable peace and social cohesion in Ethiopia by strengthening inclusive and gender sensitive dialogue and social fabric at different levels. Facilitating recovery, inclusion and resilience building of conflict survivors, particularly women and girls, will be a main component of the Action. It will take a two-pronged approach with on the one hand, support in addressing local tensions and building social cohesion and, on the other, in boosting conflict affected population's effort in recovering and rebuilding their lives.

This Action has a budget of EUR 10 000 000, and will have a duration of 36 months. The main beneficiaries of this Action will be particularly those that have been affected by previous and current conflicts. The focus will be on women and girls living in the targeted areas, with a special attention to the most vulnerable and marginalised groups, including female headed households, Internally Displaced People (IDPs), minority groups and People with Disabilities (PwD) .

This action will significantly contribute to efforts on peace negotiations, and national dialogue initiated by the government of Ethiopia and other stakeholders. In addition, it will complement and look for synergies with other Individual Measures and programmes implemented by the EU Delegation, ECHO and FPI in Ethiopia as well as by other donors, ensuring that humanitarian-development-peace nexus approach is fully taken into account.
