12. Amounts concerned	Budget line(s) (article, item): 14.050200.01 - Territorial Programme Total estimated cost: EUR 4.1 million Total amount of EU budget contribution: EUR 4.1 million for budget support, of which, <ul style="list-style-type: none"> • EUR 3.91 million for budget support and, • EUR 190 000 for complementary support in form of technical assistance (TA). 			
MANAGEMENT AND IMPLEMENTATION				
13. Type of financing	Direct management through: <ul style="list-style-type: none"> - Budget support: Sector Reform Performance Contract - Procurement 			

1.2 Summary of the Action

The Saba Multiannual Indicative Programme (MIP) 2021-2027¹ on sustainable and resilient energy will be implemented through one single Action of EUR 4.1 million with the public entity of Saba (with EUR 3.91 million earmarked for budget support and EUR 190 000 for complementary support) over the period 2023-2026. The implementation will be carried by the Saba Electric Company (SEC).

By identifying sustainable and resilient energy as the main priority area, the Action is fully in line with the framework of cooperation established by the Decision on the Overseas Association, including Greenland (DOAG)².

Building on important earlier joint achievements, Saba decided to continue to reinforce its renewable energy sector in the light of its increased vulnerability to climate change and volatile global energy prices. The Action builds on the 11th European Development Fund (EDF) territorial programme, which updated Saba's Energy Sector Strategy for the period 2020-2025 and contributed to the funding of new solar parks, achieving a 40% renewable energy share of total production³.
