1.2 Summary of the Action

Nepal's Constitution (2015) guarantees the right to compulsory and free education up to basic level and free secondary education to every citizen. The government, with support from the EU and other partners, has undertaken a series of national programmes in the education sector over the past two decades that have contributed to reducing education inequalities, improving governance, financing, and efficiency. However, challenges remain, especially in learning outcomes and equity in education, especially for girls and marginalised groups.
