<b>BUDGET INFORMATION</b>				
<b>12. Amounts concerned</b>	<p>Budget line(s) (article, item):</p> <p>BGUE-B2022-14.020121-C1-INTPA: EUR 1 500 000</p> <p>BGUE-B2023-14.020121-C1-INTPA: EUR 2 000 000</p> <p>BGUE-B2024-14.020121-C1-INTPA: EUR 1 500 000</p> <p>Total estimated cost: EUR 5 000 000</p> <p>Total amount of EU budget contribution: EUR 5 000 000</p> <p>The contribution is for an amount of EUR 1 500 000 from the general budget of the European Union for 2022 and for an amount of EUR 2 000 000 from the general budget of the European Union for 2023 and for an amount of EUR 1 500 000 from the general budget of the European Union for 2024, subject to the availability of appropriations for the respective financial years following the adoption of the relevant annual budget, or as provided for in the system of provisional twelfths.</p>			
<b>MANAGEMENT AND IMPLEMENTATION</b>				
<b>13. Type of financing</b>	<p><b>Direct management</b> through:</p> <p>- Procurement</p>			

## 1.2 Summary of the Action

The Green Support Facility supports the further development of the interventions under MIP 2021-2027 in the areas of Smart green cities as part Priority Area 1 (Green and Climate Transition) and sustainable investments, economic enablers and connectivity as part of Priority Area 2 (Sustainable and Inclusive Growth and Jobs). The Green Support Facility fully integrates and supports the development of the European Union's Global Gateway<sup>1</sup>, as well as the Strategic Corridors initiative<sup>2</sup>. The development of interventions requires appropriate levels of identification, formulation, scoping/feasibility and/or any other preparatory studies of relevance.

The Green Support Facility specifically aims at pre-feasibility, feasibility studies and any other preparatory study to support a pipeline of investments in sustainable infrastructure, through blending and EFSD+ mechanisms. The thematic areas contemplated include tentatively: digitalisation, renewable energy, green industrialisation, sustainable mining value chains, sustainable mobility, natural resources management, waste management and water & sanitation, environmental sustainability and climate action, and gender mainstreaming on all these areas.

The Green Support Facility is targeting SDG 5, 7, 8, 9, 12, 13 and 17. The main focus is on SDG 9 'Build resilient infrastructure, promote sustainable industrialisation and foster innovation' within the areas defined by DAC-code 160, 240 and 250.
